

Data Explorer 02

The dataset for this homework is GDsetlists.csv

This is a dataset that has been scraped from a fan website! Real-world data!!
It's noisy and has undergone no cleaning.

The dataset consists of setlists for every Grateful Dead concert from 1972 to 1993.

1. Develop a model that takes in a song title and predicts whether or not the song was part of a setlist played in the 1980s
2. Data visualization
